Skills. Earn
While You
Learn.

About CAREER AMEND

Career Amend isn't just an education platform—it's a launchpad for global tech careers. With a presence in 12+ countries, 10,000+ alumni, and internship partnerships across the US, UK, AUS, and India, we help aspiring data professionals become industry-ready freelancers, interns, and full-time professionals.

Your Internship. Your Way.

Track 1: 6-Month Pure Internship (Project-Only Track)

- No training. Straight into 80+ live projects.
- Real clients. Real feedback. Real earnings.
- Stipends & project-based payouts.
- Ideal for self-taught coders, freelancers, and advanced learners.

Track 2: 3-Month Training + 3-Month Internship

- Industry-aligned curriculum covering Python, ML, AI, SQL, NLP, and more.
- Mentor-led training with case studies and assignments.
- Transition into a 3-month hands-on internship with real clients.

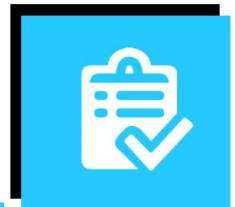

Choose what fits your skill level and goals—
both tracks come with full career support.

Why Choose CAREER AMEND?

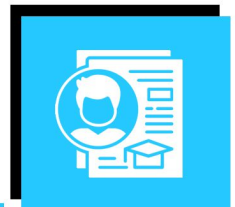

Global network
of mentors, freelancers, and clients.

Real projects
with measurable impact.

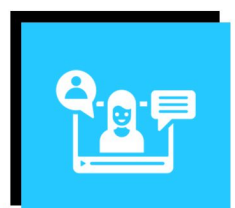

Earn during internship
with direct client work.

No fluff curriculum built by industry
leaders from Amazon, IBM, Google.

Lifetime community access, with project
updates, job alerts, and client leads.

Dedicated freelance & startup training
you're not just an intern, you're an entrepreneur
in the making.

What Sets US APART

Live Industry Projects:

You'll work on real datasets sourced from global businesses, including fintech, supply chain, healthcare, and retail sectors.

Collaborations that Count:

Our strategic collaborations with Meta and Gemini (by Google) enable you to explore advanced tools like LLaMA, Gemini AI, and responsible AI practices, adding credibility and weight to your portfolio.

Tools & Technologies:

Tools & Technologies:
Python | R | SQL | Pandas
| Scikit-learn |
TensorFlow | Power BI |
Tableau | Jupyter
Notebooks | GitHub |
LLaMA | Gemini AI

Mentorship & Feedback:

Weekly one-on-one mentorship sessions.
Continuous code reviews and feedback from seasoned professionals.

What You'll Learn

(TRAINING TRACK)

Python, NumPy,
Pandas,
Matplotlib,
Seaborn

EDA
(Exploratory
Data Analysis)

SQL,
PostgreSQL,
MongoDB

Scikit-learn,
TensorFlow,
Keras

Natural
Language
Processing &
OpenAI

Data Viz: Power
BI, Tableau

Cloud
Deployment
(AWS, Heroku,
Streamlit)

API Integrations
& Web Scraping

End-to-End ML
Pipelines &
Business
Problem Solving

Projects

YOU'LL COMPLETE

Over 80 projects across industries:

Retail:

Inventory forecasting, customer segmentation

Finance:

Credit default prediction, fraud detection

Healthcare:

Diabetes detection, patient risk scoring

HR Analytics:

Resume ranking, attrition modeling

E-commerce:

Recommendation engines, sales trend analysis

NLP:

Chatbots, sentiment analyzers, resume parsers

Real-Time Dashboards:

Built in Power BI & Tableau

AI for Business:

Automation tools, lead scoring systems

Every project ends with feedback, performance ratings, and deliverables uploaded to GitHub.

Get Paid

WHILE YOU INTERN

Freelancing Projects:

Earn from Fiverr, Upwork, Toptal & Learning Saint's internal client pool.

Stipends & Bounties:

Top contributors win monthly bonuses and cash incentives.

Client Billing:

For qualified projects, interns are directly connected to external billing clients.

Internship Partners

Startups in AI, EdTech, FinTech

Research labs and NGOs in India & abroad

AI-based SaaS companies across Europe & Middle East

Freelance clients from the US, UK, Canada

Hiring & Placement **PARTNERS**

amazon

Deloitte.

**Tech
Mahindra**

ORACLE

- 50+ global startups and scaleups
- Data and Analytics teams across India and MENA region

What You'll Get **(DELIVERABLES)**

Internship Certificate
(Govt. & Private Sector-Recognized)

Experience Letter with Domain & Duration

Live Project Portfolio on GitHub

Mentor Feedback Sheets

Client Testimonials & Reviews
(Freelancing Track)

LinkedIn Recommendations from Mentors/Clients

Lifetime LMS & Community Access

Startup & Freelance Launch Toolkit

Testimonials

FROM OUR ALUMNI

Nusrat Ahmed

Data Analyst Intern @ Zoho

"I joined as a complete beginner. In six months, I had a freelancing client, a startup project, and got placed in Zoho's Data Team. Thank you Learning Saint!"

Sarah Thompson

UK (University of Manchester)

"The internship helped me land a freelance contract and a part-time data analyst job. Projects were real, mentors were top-tier."

Liam Walker

Australia (Monash University)

"From a complete beginner to deploying dashboards for real businesses—this internship opened global doors for me."

Emily Rivera

USA (NYU)

"I now work with a startup in California building AI models—all thanks to the practical training and portfolio I built at Learning Saint."

Frequently Asked QUESTIONS (FAQS)

Q. Is the program fully remote?

Yes, it's 100% online. You can join from anywhere in the world.

Q. Will I really get freelance clients?

Yes. You'll be trained in freelancing, and we'll even connect you with live client work.

Q. Is this a paid internship?

Yes. Stipends, bounties, and freelance earnings are all possible—especially in the pure internship track.

Q. What if I only want the training, not the internship?

You can opt for just the training phase, but we strongly recommend doing both for full benefit.

Q. Do I get placement support?

Yes, we offer resume help, referrals, mock interviews, and startup introductions.

Take the Leap

Let your code create impact. Let your skills pay you. Let your journey begin.

Career Amend is not just a place to learn—it's a movement of creators, builders, and tech leaders. Whether you want a career in data, or simply wish to build something meaningful, this internship is your gateway.
